MAIN RESULTS OF THE COOPERATION FRAMEWORK IN 2023

2023 was a very important year for the United Nations System in Chile’s work, as the United Nations Sustainable Development Cooperation Framework for Chile 2023-2026 was signed. As UN Chile, we committed to supporting the country in reducing the gaps that hinder the materialization of substantive equality in access to and full exercise of human rights. We also worked to strengthen democratic institutions, social cohesion, and citizen security, leading to continued prosperity with greater equity. Confronting the triple planetary crisis is one of the guiding themes of our work, as well as advancing gender equality by supporting and promoting the commitments already made by Chile and its institutions.

COUNTRY TEAM COMPOSITION

KEY PARTNERS OF THE UNITED NATIONS SYSTEM

TYPE OF ACTIVITY

Gender Contribution* 89%
Human Rights Contribution* 90%

Initiatives that, in their design or results, contribute to gender equality and respect for human rights.
